## Need a Passport? Visit City Hall.

U.S. Passport application services may be obtained through the City Clerk's Office at West Covina City Hall. West Covina offers one-stop service and assistance by trained personnel and also provides on-site passport photo service. Passport fees are payable by check or money order only.

Beginning June 2009, U.S. Citizens entering the United States at sea or land ports of entry are required to have documents that comply with the Western Hemisphere Travel Initiative (WHTI), most commonly a U.S. passport or a passport card. For more information and current Passport fees, please visit the State Department's website at [www.travel.state.gov](http://www.travel.state.gov) or the City of West Covina's website at [www.westcovina.org](http://www.westcovina.org) or call our passport hotline at (626) 939-8744.

The City Clerk's Office is open for passport application service M-Th from 9:00 a.m. to 4:00 p.m. The office is located in West Covina City Hall, 1444 W. Garvey Avenue. S. Room # 317. No appointments are necessary, we offer walk in service only.

# City of West Covina Honored as 'Playful City USA'

The City of West Covina was recently honored as a KaBOOM! Playful City for 2013. West Covina is one of 37 cities nationwide to receive this recognition for the first time.

Sponsored by the Humana Foundation, Playful City USA is a national program from KaBOOM!, a nonprofit organization based in Washington, D.C., that celebrates and promotes local policies that increase play opportunities for children across the United States. The Playful City USA program was established in 2007 to help local governments address the lack of play in communities across the United States and to recognize those communities that are making a commitment to play and physical activity by developing unique local action plans to increase the quantity and quality of play in their community.

## West Covina Host Special Olympics

### West Covina Chosen as Host City for 2015 Special Olympics

On Monday, May 5, 2014 the City of West Covina was selected by the Special Olympics to be a "Host Town" for the 2015 Special Olympics World Games to be held in Los Angeles from July 25 through August 2, 2015. With over 7,000 Special Olympians from 177 countries coming to Los Angeles, cities throughout Southern California will serve as Host Towns from July 21 through July 24, 2015, to allow the athletes to become acclimated to the greater Los Angeles area.

As a Host Town, West Covina will provide visiting Special Olympics athletes with the opportunity to learn about and experience American culture, as well as share their own culture with the community. West Covina residents, civic groups, and businesses plan to roll out the red carpet for the visiting athletes, with community rallies, a summer concert in the park, old-fashioned American cuisine, and diverse activities to showcase West Covina as part of the melting pot of Southern California.

"The Host Town program is an exciting way for Southern California locals to open our doors and show the athletes and coaches from around the world our hospitality and our culture," said Patrick McClenahan, President and Chief Executive Officer of LA2015, the Games Organizing Committee. "This is an important part of the World Games experience and a truly meaningful way for different communities to be part of the Games and create lasting memories for our visiting athletes."

This is sure to be a memorable experience for West Covina. Be sure to visit the City's website on upcoming special events

### What are Advanced Meters?

Southern California Gas Company (SoCalGas®) is upgrading its system by adding an advanced meter communications device to all residential and business natural gas meters. The advanced meter device will read and transmit your natural gas usage information back to SoCalGas.

The advanced meter device, which will be installed on your existing analog meter, is battery-powered and turns on for only a fraction of a second a day, for a total of less than two minutes a year. Advanced meters cannot turn on or turn off your gas service. With this upgrade, you will have access to more frequent and detailed information about your gas consumption at [socialgas.com](http://socialgas.com), enabling you to have better control over your energy usage and potentially save money.

SoCalGas is scheduled to install the advanced meter device on approximately 6 million natural gas meters through 2017. This technology evolution is the next step in providing new and improved service for current and future customers.

### What if I don't want an Advanced Meter?

SoCalGas supports customer choice and recognizes that some residential customers may prefer not to have an advanced meter installed and would rather have their gas meter manually read each month. \*If you do not want an advanced meter installed, you must call our Customer Contact Center at **1-800-427-2200** and request to be added to the "advanced meter deferral list."

If you defer installation now, SoCalGas will contact you once the California Public Utilities Commission (CPUC) has ruled on our advanced meter opt-out program. You can decide at that time, based on the rate approved by the CPUC, whether you want to formally opt-out and pay the applicable fees or allow the installation of an advanced meter at no incremental cost.

\*Deferral list option applicable to residential customers only.

### BENEFITS OF ADVANCED METERS

- **Manage Energy Use Better:** You will have access to more detailed information and analysis tools online through My Account at [socialgas.com](http://socialgas.com), where you can also view and pay your bill, schedule service and sign up for paperless billing. We will notify you when your more detailed information becomes available online.
- **New "Ways to Save" section on [socialgas.com](http://socialgas.com):** Gas usage increases during cold months as your furnace and water heater use more energy. To help you keep your heating costs down, visit the new Ways to Save section on [socialgas.com](http://socialgas.com).
- **Location Privacy and Security:** Customers who, in the past, had to provide SoCalGas with a key to their gates, leave latches unlocked or confine their dogs to allow meter reading will only need to provide entry for periodic maintenance. To increase privacy and security, only encrypted gas usage information will be transmitted from the meters.
- **Greater Accuracy:** Advanced meters can also improve billing accuracy, reducing the potential for errors.
- **Help the Environment:** Advanced meters will take 1,000 SoCalGas vehicles off the road every day, reduce 6.3 million vehicle miles and approximately 140,000 tons of greenhouse gases per year.
- **New Bill Alerts:** In the summer of 2013, advanced meter customers will be able to sign up for alerts, providing up-to-date information on your energy usage and billing status by text or email.
- **Operational Efficiencies:** The advanced meter project will enable operational savings over the life of the project, estimated to be more than double the value of our investment. Operational savings will be passed along to customers in overall rates.
