* I'm Brian Jobst. A 31-year resident of West Covina.

* The following are my comments for the city council meeting on September 15, 2020.

* At this evening's city council meeting you (the City Council) will be seeing a presentation from the West Covina Police Department entitled "West Covina Police Department Updates".

* This is item #12 on your council meeting agenda.

* Slide #34 of the Police Department's presentation is titled, "**10 most problematic intersections within the city**"

* Please note that on this table the #1 most problematic intersection in the entire 16 square miles of West Covina is the corner of Azusa Avenue and Amar Road.

* That bears repeating – **According to the West Covina Police Department, the most problematic intersection in all of West Covina is the intersection Azusa Ave and Amar Road.**

* This intersection is directly south of the entrance to what the Singpoli Group LLC has described in their proposal as an "international destination hotel and resort".

* This is the same intersection that during the Community Meeting on 12/6/2018 Mr. William Chu, *Singpoli's Chief Financial Officer apologized for being late to the Meeting because he was caught in traffic at the intersection of Azusa Avenue and Amar Road.*

* If you think the intersection of Azusa and Amar is a problem now, just think about what will result if Singpoli builds its proposed 400-room hotel, villas, ...and an amphitheater (for Coachella style events according to Mayor Wu).

* YOU will regularly cripple traffic for miles around in West Covina, Walnut, Valinda and La Puente.

* **Stop putting money ahead of the health and quality of life of the residents you were elected to serve.**

Dear city council members, city staffs,

I'm a concerned resident. My name is Melinda Fuzesy. I am concerned about a proposition coming out in November. That is proposition 16. Proposition 16 permits the government to discriminate based on race or gender. This is clearly legal and we request our elected officials to take a position against it. Oddly, supporters of proposition 16 state that proposition 16 benefits people of color in education and government contracting. But where is the language in the proposition that says that? Instead the proposition merely eliminates the California constitution that says you cannot based on race or gender. That is the reason why the residents of the city are against proposition 16. We must stand against racism in all forms.

Thank you all,

Melinda Fuzesy
