Dear Members of City Council

I am calling in to express my appreciation for your hard work and efforts to address our city's financial problems. In this toxic political culture we can get caught up in everyone's own agenda and bash our leaders about everything, but this council has done a great job during a COVID outbreak, after being dealt a financial crisis.

I want to first recognize the outstanding work of refinancing the pension debt into a better rate saving the city millions! Fantastic work!

Secondly, the streets got some much needed attention and I'm happy to say that improves the value of our homes. Thank you very much!

Sincerely,

Simon Wright

Re: Oral Communications 8/18/2020 City Council Meeting Citrus & Cameron Traffic

From: Peter H. Davis, E.Ed. [REDACTED]

Residence for almost 50 years: [REDACTED]

My home is south east of the intersection and has the first driveway on Cameron. I was concerned about the safety of pulling out of the driveway if cars going north on Citrus made a right turn without stopping; especially if Cameron had a left turn lane (making the lanes in front of my house 5 feet narrower. This would occur if there was a traffic light and it was green for Citrus.

The recommendations of Transtech Traffic Department would save me from this serious danger as well as provide safety to drivers, pedestrians, and others. Keeping the parking lane and marking it off with a white line and no left turn lanes is the best part of their excellent proposal. New radar feedback signs along with flashing stop signs should do much to calm traffic. The ability for people and service vehicles to park in front of houses as well as put out our garbage cans and receive US Mail would continue by staying with the current lane configuration (without left turn lanes). The other calming plans will also serve to make this intersection safer and accident free.

Thank you in advance for passing these recommendations.

Thank you Jana. I too hope that you and your loved ones are doing well in these times.

**I find your recommendations excellent!!** I will write an email in support of them. Is there some way to watch the City Council as they deal with the report?
