I am very upset this morning because I was woken up at 6 am to construction at my neighbors residence. I immediately called Code Enforcement when they opened and told them the situation. I was told someone would be sent out so I waited.

I continued calling code enforcement because the work continued so I called code enforcement again and was told the manager was given notice of the situation...

Sara then told me nothing could be done because they are short staffed.

This is not what I pay taxes for. To be told nothing can be done about construction beginning at 6 am.

This matter needs to be discussed and solutions need to be made regarding this code enforcement's attitude about nothing being able to be done.

I understand this is an unprecedented time, but jobs still need to be done especially in public service.

My name is Ernest Barrios I reside at [REDACTED] I can be contacted at [REDACTED]

I expect this to be discussed on an open forum soon.

To put this in perspective... I know if it was a council members home or concern this would have been rectified immediately.
